
PRESSURE, PUMPS, AND THE UES: THE CASE FOR PHARYNGEAL MANOMETRY IN CLINICAL PRACTICE

SWALLOW YOUR PRIDE Podcast

SPECIAL GUEST:

Jaimie Anderson

MS, CCC-SLP, BC-ANCDS

Jaimie Anderson is a medical speech-language pathologist (SLP), board certified by the Academy of Neurogenic Communication Disorders (BC-ANCDS). She currently evaluates and treats complex multiphase swallowing, voice, upper airway, and motor speech disorders at one of the nation's first swallowing centers, the University of South Florida Joy McCann Culverhouse Center for Swallowing Disorders in Tampa, Florida. She founded and hosts an annual international multidisciplinary swallowing symposium that has reached over 1000 attendees virtually and in-person. Her clinical and scholarly interests include implementation science, the assessment of upper esophageal sphincter dysfunction using high-resolution pharyngeal manometry, differential diagnosis and management of motor speech disorders, and functional neurologic disorders impacting speech and swallowing.

SPECIAL GUEST:

Diane Longnecker

PhD., CCC-SLP, BCS-S

Diane Longnecker is an Assistant Professor at Baylor University in Waco, TX. She received her MS in Communication Sciences and Disorders from The University of Texas at Dallas and her PhD in Health Studies from Texas Woman's University. Dr. Longnecker's research focuses primarily on swallowing and swallowing disorders in adults. She is also a certified speech-language pathologist and has worked with adults with dysphagia in a variety of medical settings since 2008.
